TaskProgress {
  description:
    Player's progress of a given task. The key is the UUID correlating
    to the task ID available via the tarkov.dev API

  id
    string
    UUID correlating to the task ID available via the tarkov.dev API

  complete
    boolean
    True if a given quest has been completed.

  failed
    boolean
    True if a given quest has been failed in some permanent way (eg.
    one of three quest options was chosen and the other two are now
    unavailable)

  invalid
    boolean
    True if a given quest is no longer accessible, but not necessarily
    failed (eg. wrong faction, part of a quest chain that was not
    chosen by previous completions)
}

```

```
HideoutModulesProgress  {
  description:
    Player's progress on a given hideout module.

  id
    string
    UUID correlating to the hideout station level ID available via the
    tarkov.dev API

  complete
    boolean
    True if a given hideout module has been installed
}
```

```
TaskObjectiveProgress  {
  description:
    Player's progress on a given task objective.

  id
    string
    UUID correlating to the task objective ID available via the
    tarkov.dev API

  count
    integer
    Number of items collected for a given objective (if applicable)

  complete
    boolean
    True if a given objective has been completed

  invalid
    boolean
    True if a given objective is no longer accessible, but not
    necessarily failed (eg. wrong faction, part of a quest chain that
    was not chosen by previous completions)
}
```

```
HideoutPartsProgress  {
  description:
    Player's progress on items needed for hideout module upgrades.

  complete
    boolean
    True if a given hideout part objective has been completed

  count
    integer
    Number of items collected for a given hideout part objective

  id
    string
    UUID correlating to individual hideout station level item
    requirements' ID available via the tarkov.dev API
}
```
